Hi, I'm Abdi Adan

Professional Summary

I Love designing great User Experiences and developing cutting edge
enterprise apps. I am passionate about developing applications, with
special focus on data science and providing data driven software
products that drive key business decisions.

Experience

intrepidSYS - LEAD SOFTWARE DEVELOPER
May 2019 to Present, IntrepidSYS,
Nairobi, Kenya

Full Time; From May 2020 to date

Founded a software development company to deliver client,
businesses and startup software projects in a more streamlined
fashion. Setting up a team of developers and designers, intrepidSYS
builds custom software products from businesses, and individuals
looking to outsource their development projects.

FREELANCE DEVELOPER- SOFTWARE DEVELOPER
Nairobi, Kenya,
Full Time; From Feb 2020 to April 2020

I developed various client mobile and web projects individually and in
teams from the design of the User Interface right until deploying the
projects complete with back-ends. The link to which are on my
projects list and personal Portfolio

Kitabu Africa - Full Stack Engineer
Nairobi, Kenya
Full Time; From May 2019 to Feb 2020

Developing and Testing various Software applications including Mobile
apps, web-apps and modifying existing software to enable better
integrations, clean and maintainable code.

Education

KENYATTA UNIVERSITY
Nairobi, Kenya
Graduating in Dec, 2022

Bsc. Economics and Finance

Majored In Economics Theory and minor in Finance and Accounting.

SELF - TAUGHT SOFTWARE DEVELOPER
Nairobi, Kenya
From May 2018 to date

I am a self taught software developer with 2 years experience developing
software products and applications. While I have not attended an
accredited institution for this qualification, I have done a number of
undoubtedly impressive projects which you can view on my github at;
https://github.com/Abdi-Adan
